

Praia Industrial Zone

Praia Industrial Zone

In the city of Praia – island of Santiago there are four Industrial Zones defined in the city's urbanization plans (Tira Chapéu industrial Zone, Achada Grande Trás industrial Zone, Achada S. Filipe industrial Zone and Palmarejo Grande industrial Zone).

Achada Grande Trás Industrial Zone

The Industrial Zone of Achada Grande de Trás (City of Praia-Island of Santiago) is totally sold although there are still many unoccupied lots. They belong to private “investors” who will transact them at best price. The lots of this industrial area are not infrastructured, however it is relatively easy to proceed to the various connections of water and sewage, electricity, and telephone.

An expansion process is in progress, but it is not yet possible to present conditions for establishment.
